Equipment meeting Buy American Requirements (as determined by HQ)
updated November 9, 2009

The following manufacturer's equipment on the FAA certified equipment list if applicable meets the Buy American Preference requirements in 49 USC 50101. **Additional waiver paperwork is not required for AIP or ARRA projects**

BA in cell means meets the product meets Buy American requirements

A blank cell means that no determination has been made about the manufacturer's products. A project-specific review must be made and project-specific waiver issued if appropriate.
Not Submitted in cell means that the manufacturer has not submitted the information for FAA national review and may, or may not meet Buy American preference requirements.
