Attention: For General Distribution

Reference: **FAA Buy American Waivers**

Please be advised that the FAA has issued Liberty Airport Systems with Buy American Waivers for its ETL-certified airport lighting equipment. This will include:

- L-828 Constant Current Regulators
- L-829 Constant Current Regulators
- L-890 Airfield Lighting Control & Monitoring Systems

The information is on file in Washington, DC and may be confirmed through any regional FAA office. If you have any questions on this matter, please contact our office at any time.

Don Gordon
VP Sales

Subject: *Liberty Airport Systems Buy American*

I have confirmed that based on the information provided, the Liberty Airport Systems equipment that is manufactured in the Lancaster New York facility meets the Buy American Preference requirements in 49 USC 50101 for the L-828, L-829 and L-890 equipment that is currently listed in the Appendix 3 Addendum to FAA AC 150/5345-53C.

Additional waiver paperwork is not required for AIP or ARRA projects. Please note that this email does not replace any certifications or requirements that are required for technical or laboratory certifications.

I am copying this email to our FAA staff who may use this on AIP or ARRA projects.
